THOUGHTFULLY DESIGNED

Keep your laptops and devices protected, wherever you are.

These stylish and comfortable cases are designed with sustainability and functionality in mind¹—so you can travel with peace of mind.

Protect your laptop
and devices on the go

Functional designs with
multiple compartments,
in-bag charging features
and durable materials.

Backpacks offer a
hands-free carry for
all of your essentials
while on the go

Briefcases
are lightweight
and comfortable
to carry in three
flexible ways— hand
carry, over the shoulder,
and crossbody

Designed with the
environment in mind,
our EcoLoop series
are manufactured with
select materials and/or
processes that help reduce
environmental impact¹

EcoLoop™

Sleeves are slim and
lightweight and protect
laptops from scuffs,
scratches, and dust

Comfortable to carry
with padded, adjustable
shoulder straps and
handles, breathable back
padding, and side straps

¹ Sustainable practices and functionality vary by different products and models.

FORM MEETS FUNCTION

Built to follow you wherever you go

Designed for style and comfort, Dell carrying cases easily complement any lifestyle with features¹ that keep you on the go while protecting your devices.

PRODUCTIVITY
Convenient charging pass-through makes it easy to charge when you're on the go

PROTECT electronics
EVA foam cushioning built around your laptop will keep your devices protected. Anti-scratch Nylux lining for laptop

COMFORT
Luggage handle pass-through to make travel easier

PROTECT carried items
Built with **water-resistant materials** that withstand the demands of everyday commuting

PROTECT the user
Reflective accents provide increased visibility during low-light conditions

EcoLoop™
EcoLoop™

Protect the planet

Choose the right Dell Carrying Case for you

Whether you're looking for something premium, affordable, eco-conscious, or fashion-forward—we've got you covered. Choose from a variety of backpacks, briefcases, and sleeves designed for you and your needs.

¹ All images for illustration purpose only. Features availability varies with different carry cases.

Dell Carrying cases come with 3 years limited warranty

CREATED WITH THE ENVIRONMENT IN MIND

How Dell Carrying Cases make a difference

The Dell EcoLoop™ label identifies products that are manufactured with select materials and/or processes that help reduce our environmental impact.

Our EcoLoop™ series carrying cases come with at least one of the following 5 practices.¹

Ocean-bound Plastics

By incorporating ocean-bound plastics into select products, we've diverted **132 metric tons** of ocean-bound plastic² from ocean coastlines and major waterways. That's equivalent to **14 million** plastic water bottles.²

Responsible Dyeing Process

Through our responsible dyeing process, fabrics are woven from solution-dyed yarns, incorporating colour directly into the fibers prior to weaving. This process can generate up to **90% less wastewater, up to 62% less CO₂ emissions, and use up to 29% less energy** than traditional dyeing processes.³

Recycled Weatherproofing

Fabric-coating is made from recycled PVB film⁴ recovered from used car windshields, which helps keep **materials out of landfills**.

Recycled Polyethylene Terephthalate (rPET)

Selected products are constructed partially from **post-consumer recycled** PET (rPET). By using recycled materials, we've diverted 12 metric tons of recycled plastic, equivalent to 1 million plastic bottles.²

Recycled Content Packaging

Our hang tags, hang loops, and plastic bags are constructed using **100% recycled content**.

¹ Sustainable practices vary by product model; please refer to the product pages on Dell.com.

² Based on internal analysis, Jan. 2022. Plastic bottle estimate assumes a 500ml plastic water bottle.

³ Based on internal analysis of published data on solution-dyed virgin polyester, January 2022

⁴ Based on Internal Analysis of published data on recycled PVB film recovered from used car windshields, March 2022.

CREATED WITH THE ENVIRONMENT IN MIND

EcoLoop™

*Only applicable to the exterior main fabric on Dell Pro series

Ocean-bound Plastic

Each year, an estimated 11 million metric tons of plastic waste enter the Earth's Oceans.¹ To help remedy the ocean plastic crisis, Dell Pro series exterior main fabric is made with 100% Ocean bound-plastic certified™ by OceanCycle.²

1 Source : <https://oceancycle.co>

2 OceanCycle Certified™ purchased yarn. Ocean-bound plastic is waste collected within 50 kilometers (30 miles) of an ocean coastline or major waterway.

Material Collection:

Fits within OceanCycle's standards of proximity to the coastline in an area of mismanaged waste.

Documentation:

Compliance with OceanCycle's end-to-end traceability, documented from bottle collection through to manufacturing.
