

World's 1st enhanced IPS Black monitor that features 3,000:1 contrast ratio¹

Dell UltraSharp 32 4K Thunderbolt Hub Monitor

MODEL: U3225QE

The world's # 1 monitor company*

* Dell monitors are #1 Worldwide for 10 years! Source: IDC Worldwide Quarterly PC Monitor Tracker, Q2 2024. From 2014 to 2024.

1 Based on Dell analysis of publicly available data, October 2024.

World's 1st enhanced IPS Black monitor that features 3,000:1 contrast ratio¹

Best-in-class screen performance with world's first enhanced IPS Black technology¹ and world's best eye comfort² on a powerful Thunderbolt hub monitor.

Industry leading screen performance

Experience stunning visuals on the world's first enhanced IPS Black monitor, boasting an impressive 3,000:1 contrast ratio, which delivers three times the contrast of conventional IPS displays and 47% deeper blacks.³

Improves ambient contrast by 89%³ with its low reflectance panel, ensuring vibrant visuals even in bright environments.

With 99% coverage of DCI-P3 and Display P3, along with 100% sRGB and BT.709 (Delta E < 1.5 average), it offers exceptional color accuracy. Enjoy smoother, fluid visuals with a 120 Hz refresh rate, while the stunning 4K 31.5" display reveals intricate details.

World's best eye comfort²

Experience all-day visual comfort on this monitor that is TÜV Rheinland 5-star eye comfort certified.

Improved ComfortView Plus technology significantly reduces blue light emission to less than 35%, all while maintaining color accuracy.

Enjoy smooth visuals and reduced flicker with a 120Hz refresh rate.

Ambient Light Sensor automatically adjusts your screen brightness and color temperature to match the surrounding lighting conditions.

Lightning-fast efficiency

Experience fast connectivity and image transmission with this Thunderbolt 4 hub monitor that delivers up to 140W EPR through a single cable.

Stay connected with the built-in RJ45 Ethernet port, 2.5GbE, providing a stable and fast Ethernet connection for seamless online experiences.

Multitask across two 4K monitors with 4K daisy-chaining. This monitor works seamlessly on multiple operating systems, enhancing your setup versatility.

A pop-out quick access port provides up to 15W charging via USB-C. This port can be tucked away when not in use, maintaining a sleek, premium look

¹ Based on Dell analysis of publicly available data, October 2024.

² Based on Dell analysis of publicly available data, October 2024.

³ Based on third-party research findings of IPS Black 2.0 panel vs conventional IPS Panel, November 2024

Enhanced eye comfort

Stay productive while ensuring eye comfort. The 120Hz refresh rate delivers smooth motions visuals, built-in ambient light sensor intelligently adjusts screen brightness to match your environment, and improved ComfortView Plus reduces harmful low blue light emissions without sacrificing color.

Impressive viewing experience

Every detail comes to life on this 31.5" monitor with 4K (3840 x 2160) resolution. Experience deeper blacks and brighter white with 3000:1 contrast ratio with the new enhanced IPS Black panel technology and better ambient contrast with a lower reflectance panel.

See your work in stunning colors

Experience true-to-life visuals with 1.07 billion colors, a wide color gamut including 100% sRGB, 100% BT.709, 99% DCI-P3 / Display P3, and VESA Certified DisplayHDR™ 600.

Multitasking made easy

Connect two PC sources and multitask efficiently with Picture-by-Picture / Picture-in-Picture and Network KVM and Auto KVM.

Connectivity that powers productivity

Reduce cable clutter with Thunderbolt 4 connectivity that transmits data and video while delivering up to 140W EPR to power a wide range of laptops. Get stable 2.5 GbE Ethernet connection to your network with RJ45 that comes with PXE boot, Mac Address pass-thru¹ and Wake on LAN features.

World's number 1 monitor company*

We deliver world-class monitors that have gone through rigorous development processes and stringent tests to ensure dependable performance. Get peace of mind with unmatched warranty and support options. Being environmentally forward in thinking, our monitors adhere to environment standards and are made with sustainable materials.

* Dell monitors are #1 Worldwide for 10 years! Source: IDC Worldwide Quarterly PC Monitor Tracker, Q2 2024. From 2014 to 2024.

¹ MAC Address pass-through functionality is tested to work with most Dell PC systems. Functionality on non-Dell systems may vary.

Environmentally-forward thinking

Material innovation

Your monitor has been thoughtfully crafted with a selection of sustainable materials including 87% post-consumer plastic and closed loop plastic¹, 100% recycled aluminum², 50% recycled steel³ and at least 20% recycled glass⁴ that make up 29% recycled content by weight.⁵ Using recycled materials helps conserve natural resources and contributes to a lower environmental footprint.

Environmental standards

This monitor is registered EPEAT Gold with Climate+, certified ENERGY STAR® and carries the latest TCO certified designation. With the new certification, this monitor is assured to be built using renewable energy while meeting high safety standards.⁶

Seamlessly modernize your tech

We can help you responsibly and securely retire your legacy IT equipment, regardless of brand, while addressing your sustainability goals.

Packaging with purpose

This monitor ships in a box made from 100% renewable materials. We are reducing plastic waste wherever possible and transitioning to a responsible fiber-based solution.⁷

¹ Percentage is based on plastic weight. Based on internal analysis, January 2025. 68% post-consumer recycled plastic and 19% closed loop ITE derived plastic.

² Based on internal analysis, January 2025. Recycled aluminum is in the monitor stand.

³ Based on internal analysis, January 2025. Recycled steel is in the monitor head and stand.

⁴ Applicable to all new monitors launching in CY 2024. Recycled glass is present in monitor panel. Based on internal analysis, January 2024

⁵ Based on internal analysis, January 2025.

⁶ EPEAT registered where applicable. EPEAT registration varies by country. See www.epeat.net for registration status by country.

⁷ Applies to all Dell monitors launched since 2023. Made from FSC mix sources which is a mix of material from FSC certified forests, recycled content and/or FSC controlled wood. Based on internal analysis, January 2025. Cushions now made from corrugated materials.

Designed for you

Crafted with a premium platinum silver finish, this stylish Dell UltraSharp 32 4K Thunderbolt Hub Monitor fits both home and office environments.

De-clutter your workspace

Free up your desk space with the small monitor base and hide cables from view by tucking them into the riser.

Easy-to-use

Navigate the onscreen menu and adjust settings with a convenient joystick control.

Quick convenience

Quick-access USB-C and super speed USB 10Gbps ports enable fast data transfers and charging of up to 15W of power.

Work comfortably

Experience made-for-you comfort by tilting, swiveling, pivoting and adjusting the height of your monitor (150mm max).

Software solution to elevate your productivity

Experience the industry's first singular application to optimize the performance of your entire Dell PC workspace.¹

Dell Display and Peripheral Manager

Maximize productivity

Easy Arrange tiles apps across screens with pre-set partitions and customizes up to five windows, enhancing multitasking. Easy Arrange Memory saves and restores app profiles manually, on schedule, or at start-up.

Easy navigation

Control and work across multiple network or USB connected PCs and monitors with a single keyboard and mouse, seamlessly transferring files between them.²

More manageable

Scale up management across your entire fleet of Dell displays and client peripherals with streamlined firmware updates and expanded Command Line Interface features.

[Learn more about Dell Display and Peripheral Manager](#)

Dell Color Management

See colors as intended

Easily calibrate your monitor's colors with the new Dell Color Management software³, developed in partnership with Calman certification. Create preset color profiles that you can save on your monitor for later use.

¹ Based on Dell internal analysis – November 2024.

² KVM (keyboard, video, mouse) is available on select monitors only. For monitors that don't support USB KVM, the input source feature is an alternative. You can share multiple input sources to one monitor, but you cannot share one keyboard and mouse.

³ Compatible with external colorimeter (listed below), sold separately. Portrait Displays: C6 HDR2000, X-Rite: i1Display Pro, i1Display Pro Plus, Klein Instruments: K10, Calibrate: ColorChecker Display Pro, ColorChecker Display Plus.
