

Compact design.
360-degree protection.

Dell Pro 13-14 Plus EcoLoop Backpack

MODEL: CP5426G

A perfect balance of fashionable and functional, this compact and stylist bag fits all your need everywhere you go. It is crafted for sustainability, durably built and fits all your daily essentials.

EcoLoop™

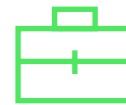

Compact & stylish

A sleek, modern gray backpack that balances style with functionality. It fits 14-inch laptops and below, offering ample storage with a dedicated laptop compartment, a main compartment with a built-in organizer, two front pockets, and two side pockets.

Designed with the environment in mind

Dell EcoLoop™ labeled backpack is produced with select materials and/or methods that reduce the environmental impact compared to traditional industry techniques. This backpack is now designed with 57% recycled content by weight, which is an average increase of 30% in the use of these materials.¹

Durable and protective

Easily access your tech and essentials with purpose-built organizers. Built to withstand daily wear and tear, it offers 360-degree protection with top bumper, thick PE foam padding, anti-scratch lining for enhanced durability.

¹ Data comparison is based on Dell EcoLoop bags launched prior 2025. Based on internal analysis, September 2024.

**Proudly OceanCycle Certified^{®1}**

Made with 57% recycled content by weight.² It also features 100% OceanCycle certified recycled ocean-bound plastic in the exterior main fabric³ reflecting our commitment to protect our ocean ecosystem.

EcoLoop™

Made with a **solution dyeing process** that can have up to a **97%** lower impact on greenhouse gas emissions, **96%** lower water impact, and **98%** lower fossil fuel use per kg of material than traditional dye processes.⁴

Packaging is now made from 100% recycled or renewable materials with the elimination of plastic bags.⁵

¹ Only applicable on exterior main fabric.

² Data comparison is based on Dell EcoLoop bags launched prior 2025. Based on internal analysis, September 2024.

³ Ocean-bound plastic is waste collected within 50 kilometers (30 miles) of an ocean coastline or major waterway.

⁴ These results were calculated using Higg MSI 3.8 available at app.worldly.io. They were calculated by Positive Scenarios Consulting, LLC and are not verified by Cascale or Worldly.

⁵ Contains 87.7% recycled content and 12.3% renewable materials. Renewable materials in the form of sustainably forested materials. Percentages may vary slightly by region. Excludes optional items added to order and included in box.
