

## Anker Charger (30W)

A2698

**Outstanding Temperature Control Upgrade:** A More Assured Safety Experience. Redefining industry standards, our product's temperature control surpasses national standards, maintaining a temperature 13 degrees Celsius lower. Among Anker chargers, the 30W compact charger stands out with the lowest temperature.

**Fashionable Low-Temperature Experience:** With higher energy density and a cooler temperature experience, our product meets your dual expectations: compact and stylish appearance combined with a low-temperature experience. The appearance is petite, stylish, and aesthetically pleasing.

**Exquisite Design :** The product design integrates the same color scheme as the iPhone, presenting a refined appearance. With innovative stacking technology, it is 25% smaller than the original.

**High-Speed Charging :** Equipped with a USB-C power port and a maximum power of 30W, it can charge smartphones, tablets, etc., at a speed three times faster than the original charger.
