

Drina

STV Drina je daljinski upravljač koji je projektovan da može upravljati najvećim brojem televizora brenda **Grundig i Hisense**.

Podšavanje:

Potrebno je izabrati jedan od 20 ponuđenih tastera (na primer 1), pritisnuti ga i zadržati pritisnutim u trajanju od 6 sekundi dok lampica ne zablinka tri puta sporo. Time ste podešavanje završili i možete testirati funkcionalnost daljinskog upravljača na Vašem televizoru.

Ako ne odgovara, možete ponoviti postupak sa preostalih 19 tastera.

Funkcija zaključavanja i otključavanja: Za aktiviranje ili deaktiviranje ove funkcije pritisnite istovremeno dva crvena tastera i držite ih 6 sekundi, dok lampica ne zablinka tri puta sporim tempom.

Potrebno je istovremeno pritisnuti i držati:

- Crveni taster za gašenje,
- Crveni taster koji se nalazi prvi u redu četiri tastera u boji (crvena, zelena, žuta i plava – boje stranica teleteksta).

Zaključavanje sprečava nehotičnu promenu moda.

Ako nakon zaključavanja želite da promenite mod, potrebno je ponoviti postupak kako biste otključali uređaj i omogućili promenu moda.

Radi lakšeg pronalaženja odgovarajućeg moda, možete pronaći model Vašeg uređaja u tabeli:

Taster Podržani modeli
